

October 2003

VoR Environmental is pleased to be appointed the sonix™ agent for Australia. VoR Environmental is a leading provider of Treatment Equipment for the water and wastewater industries in Australia, New Zealand and South East Asia.

Representing world leading manufacturers of water and wastewater equipment, VoR Environmental product range comprises of:-

- Inlet Screens
- Grit Removal Systems
- Screening and Grit Handling Systems
- Primary and Secondary Sedimentation Equipment
- Storm Overflow Equipment
- Sludge Dewatering Equipment

With the addition of the ultrasound technology of sonix™ to its product range, VoR is able to use cutting edge technology to provide solutions for enhanced digestion of sludge.

VoR Environmental head office is located in Sydney with offices in Perth and Auckland.

VoR provides a high level of technical expertise and excellent after sales service for all wastewater needs.
